

- POSITION AVAILABLE:** Diagnostic Pathologist. Asst/Assoc/Full Professor of Clinical Anatomic Pathology in the San Bernardino branch of California Animal Health & Food Safety Laboratory System (CAHFS) and Department of Pathology Microbiology & Immunology, School of Veterinary Medicine, University of California, Davis. The successful candidate will be in residence at the CAHFS laboratory in San Bernardino, CA.
- SALARY:** Dependent on qualifications and experience.
- QUALIFICATIONS:** DVM or equivalent degree with experience in mammalian/avian diseases required. Board certification or eligibility for board certification by the American College of Veterinary Pathologists (ACVP) or European College of Veterinary Pathologists (ECVP) required. Appointment renewal requires ACVP or ECVP board certification within 3 years of the date of hire. Demonstrated ability in diagnostic anatomic pathology required. Demonstrated experience in diagnostic disciplines, disease investigation and experience in diagnostic interpretation required. PhD degree in veterinary pathology or related field preferred. Knowledge of quality assurance, molecular diagnostics and bacteriology, and understanding of herd/flock management/production desired. The successful candidate will have: i) excellent interpersonal and communication skills to effectively communicate with veterinarians, producers and government agencies; ii) client-focused, service-oriented approach to diagnostics; iii) demonstrated ability to work with others in a collegial team atmosphere, and iv) demonstrated (or potential) accomplishment in areas contributing to diversity and inclusion. UC Davis is committed to supporting a diverse community of scholars with an emphasis on recruiting faculty who will contribute substantively to diversity.
- RESPONSIBILITIES:**
- Diagnostic Service: The candidate will function primarily as a diagnostic pathologist in the CAHFS laboratory located in San Bernardino, CA. The diagnostic caseload includes a variety of livestock, avian species, wildlife, zoo and small animals with an emphasis of disease conditions affecting horses and food animal species. Interaction with veterinarians and livestock producers is an integral part of this position.
- Research: Creative use of diagnostic case material including publication of results in appropriate journals is essential.
- Teaching: The incumbent will have daily interaction with local resident and limited teaching responsibilities to veterinary and graduate students.
- Service: University and public service through departmental, school and university committee work, participation in professional organizations, continuing education and other appropriate activities is required.
- APPLICATION PROCESS:** To receive fullest consideration, applications must be received by January 31, 2020; position open until filled. Interested applicants should submit 1) a letter of intent outlining special interest in the position, overall related qualifications, experiences, career goals; 2) curriculum vitae; 3) a statement summarizing experience and professional contributions in the area of diversity and inclusion; and 4) the names and addresses of five to eight professional references. Application material is to be submitted by using the University's online submission program at <https://recruit.ucdavis.edu/apply/JPF02742>

The University of California, Davis is an affirmative action/equal opportunity employer with a strong institutional commitment to the achievement of diversity among its faculty and staff.
