

Necropsy and Histology Laboratory Supervisor

Job offer

AnaPath Research

AnaPath Research is a CRO located in Barcelona, with extensive experience in carrying out preclinical trials for pharmaceutical laboratories, the chemical industry and other research organizations. In our more than 30 years of activity we have worked with the main pharmaceutical industries being part of different multinationals (RCC, Harlan and Envigo). In November 2019, AnaPath Services acquired the company and re-founded it as AnaPath Research, thus undertaking together a new project of scientific quality and close contact with new and old sponsors.

With a multidisciplinary team of scientific experts, AnaPath Research covers most fields of preclinical pharmaceutical development and chemical and food safety.

Department

AnaPath Research's Pathology, Necropsy and Histology department provides service to General Toxicology, cooperating closely with the AnaPath Services team, well known for its vast experience in toxicological histopathology.

The local department consists of a team of multidisciplinary technicians with an average experience of 15 years in necropsies on a wide range of animal species, sampling, histological processing and slide quality checking for delivery to the site's pathologist, certified by the European College of Veterinary Pathologists.

Position

We are looking for a veterinarian with experience in laboratory animal necropsies and anatomic pathology laboratory management, preferably in a regulated and quality-focused environment (GXP).

Experience in histopathological diagnosis or toxicological pathology is a plus.

Responsibilities

Management of necropsy and histology tasks: scheduling, supervision and review of documentation derived from the studies.

Scientific support of the department.

Collaborate in the implementation of new techniques in necropsy and histology.

Management of the training of collaborators and of laboratory infrastructure, equipment and reagents.

Management of the data collection software and of SOPs.

Ensuring compliance with quality standards.

Requirements

Veterinarian with at least two years' experience in performing necropsies on laboratory animals.

At least one year experience in anatomic pathology laboratory management.

Experience in histopathological diagnosis or toxicological pathology will be an asset.
